THE VISION IN YOUR MIND IS CLEAR:
A YACHT BUILT EXACTLY THE WAY YOU
WANT IT – UNLIKE ANY OTHER IN
THE WORLD. THREE YEARS
OF PLANNING, BUILDING
AND OUTFITTING WILL
GO INTO CREATING YOUR
DREAM...

This exquisite wheel, shown on the Farr 115 SOJANA, features teak and holly wood laminates with virtually invisible scarf joints. The level of construction and finish in these wheels is unmatched, and as a result, they quickly become the focal point on the finest vessels.

Twin Teak/Holly/Carbon Laminate Wheels

YOU ENVISION A CUSTOM YACHT THAT
IS ELEGANT, YET HANDLES LIKE YOUR
FIRST SMALL BOAT – ABLE TO CROSS
OCEANS, YET A PLEASURE
TO SAIL WITH FINGERTIP
CONTROL...

Baltic Yacht's 46m (152') combines classic styling with the most modern technology available. The steering was designed to give the helmsman sensitivity and feedback unequalled in a yacht of this size. Twin composite wheels epitomize elegance and traditional design.

Twin Teak/Holly/Carbon Laminate Wheels - Multi-Mode Steerer

YOU DEMAND THE HIGHEST QUALITY MATERIALS
AND CRAFTSMANSHIP IN EVERY FURNISHING,
SYSTEM AND FIXTURE...

THE ONE YOU HAVE IN YOUR
HANDS THE MOST... THE WHEEL

MJM Yacht's traditional lines and classic good looks demand a wheel that have those same qualities. Edson's Teak Rimmed Destroyer Wheel is warm to the touch, elegant and feather light. It adds the ultimate touch of class to any yacht of distinction.

"You can tell the quality of the boat by the quality of the Wheel. I always look for Edson."

Experienced Powerboat Buyer

YOU CONNECT TO YOUR YACHT THROUGH THE WHEEL.

The Edson Tri-Spoke Composite Wheel is shown on *SIZZLER*, a custom 60' daysailor designed by Tony Castro and built by The Coeur d'Alene Resort Boat Shop.

EDSON CONNECTS YOU WITH YOUR PASSION.

Albermarle, builders of premium sportfishing boats, offers Edson wheels to their most discerning customers. Reflecting quality and craftsmanship unsurpassed in the industry, the functional elegance of the Edson Powerwheel compliments the Albermarle's helm station.

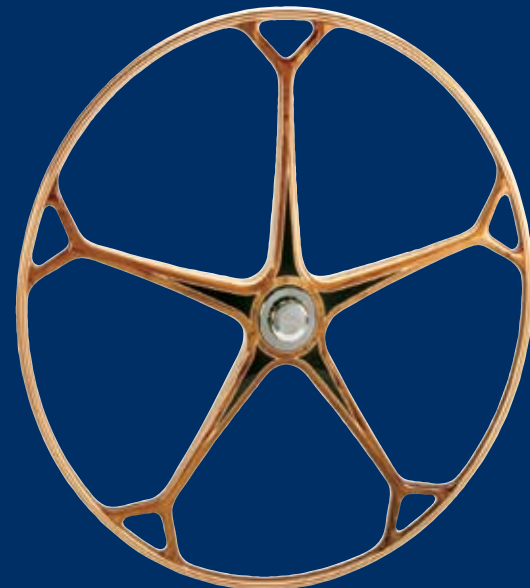

CUSTOM YACHT WHEELS FOR POWER AND SAIL

This exquisite wheel features teak and holly wood laminates, together with areas of beautifully clear-coated carbon-weave laminate. The spokes are carefully sculpted into the teak and holly rim for a very comfortable grip for the helmsman, as well as a robust connection of the spokes to the wheel rim. The wheel rim is constructed of alternating layers of teak and holly creating a beautiful contrast of two classic maritime woods. The level of construction and finish in these wheels is unmatched, and as a result, they quickly become the focal point on the finest vessels. These wheels are coated with multiple layers of clear urethane for a mirror finish. They are available with or without Edson's wheel clutch. Custom faceplate engraving available.

Carbon/Wood Laminate Wheel

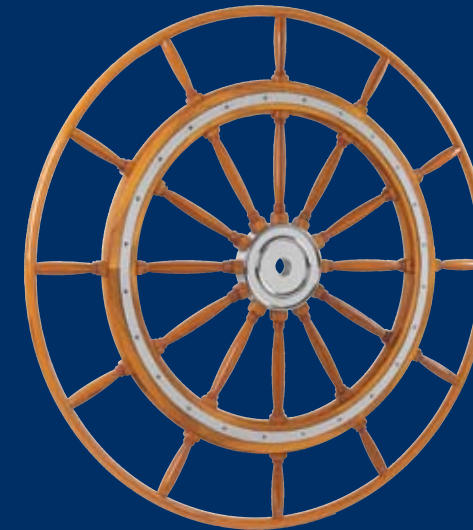

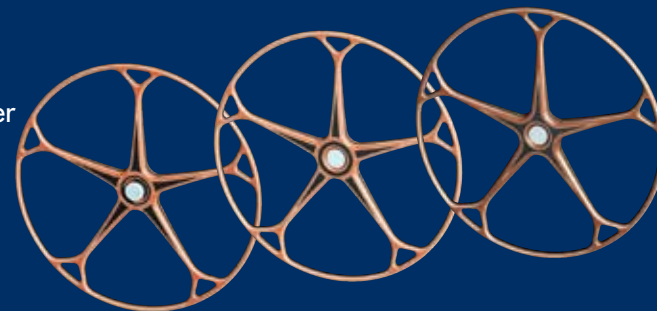

- Hubs available in Black Aluminum or Polished Stainless
- 32" (810mm) to 60" (1500mm) diameters standard, other sizes to suit
- Clear coat for a mirror finish
- Item #652

Edson's Carbon / Wood Laminated Wheel features alternating layers of Teak, Holly and Carbon Fibre to form a unique blend of traditional and modern building materials. Hand built by master craftsmen, each wheel is custom built to your specifications. You can choose wood to match your boat's brightwork, deck or interior styling. Custom faceplate engraving available.

Carbon / Wood Laminated Wheel

- 40" (1015mm) - 80" (2030mm) diameter
- Custom inlay designs available
- Item #653

Edson's Traditional Teak Wheels have the reputation of being the finest available in the world. They can be built with an outer teak rim, and we can install an optional stainless trim ring as shown in the photograph. The hub can be engraved with your yacht's name, with matching fonts and color. We can build in different woods or use a variety of different woods for the bungs. We are happy to consult with you to create the wheel of your dreams.

Custom Teak Yacht Wheel with Teak Rim

- For Power or Sail
- Solid Teak Construction
- Sizes 48" (1220mm) to 60" (1500mm)
- Custom Sizes upon request
- Stainless Hub
- 1" Straight bore or Custom Flange available
- Item #603-Custom

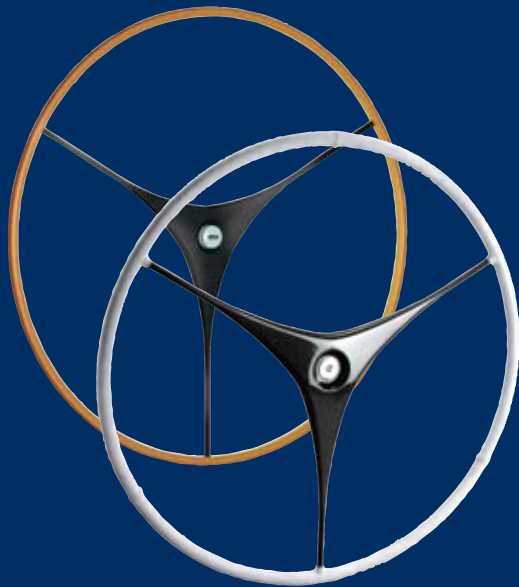

Created by third-generation master craftsmen, the skills and artistry that go in to making Edson's Classic Teak Yacht Wheel with Teak Rim have been passed down from generation to generation, ensuring a consistency and quality that can only be attained by the hand-crafted talents of their builders. The laminated 1-1/4" diameter destroyer-type rim is installed with stainless fasteners and holly bungs to the solid teak spokes. This creates an elegant wheel that keeps the traditional look yet has a modern appearance and styling.

This wheel will be the centerpiece of your cabin or cockpit and the first thing visitors to your yacht will notice.

Classic Teak Yacht Wheel with Teak Rim

- Solid Teak Construction
- 26" (660mm) to 38" (965mm) diameters
- Bronze or Chrome Hub available
- 1" Straight bore
- Item #603

CUSTOM YACHT WHEELS FOR POWER AND SAIL

Edson's Tri-Spoke Composite Hybrid Wheels offer the ability to easily reach through the wheel to access pedestal mounted instruments - free from interference from wheel spokes. The Tri-Spoke Wheels features a unique blend of materials to achieve significant weight savings with a contemporary styled wheel. The hub and spokes are molded in carbon and feature a structural component designed to give the wheel spokes rigidity and strength. The rim is hand-made by master craftsmen and shaped for the perfect fit in your hand.

Composite Hybrid Wheel - Teak or Teak & Holly Rim

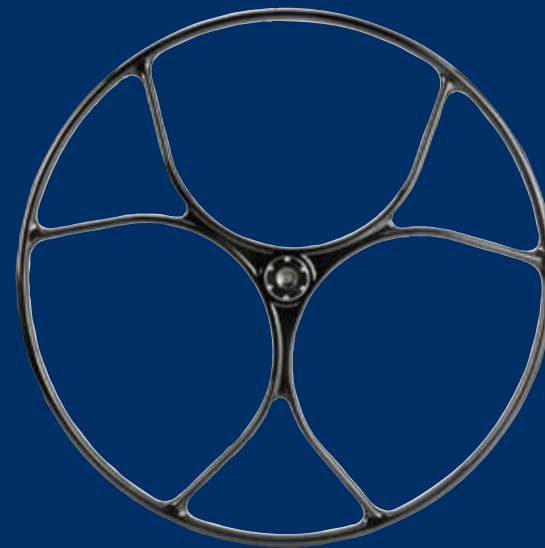

- Teak & Holly Rim or Comfort Grip Leather Covered Aluminum
- 30" (762mm) to 52" (1320mm) diameter
- Clear coat carbon weave finish
- Item #637TK or 637CG

This wheel is a classic stainless wheel design that is as comfortable on the eyes as it is on the hands. The bi-spoke design gives it superior rigidity and robustness - ideal for offshore sailing. These wheels feature Edson's ergonomic "D" shaped wheel rim for helmsman comfort and it is sized to feel right on hands that are both large and small. These wheels can be covered in Edson's super-smooth orthopedic cowhide, in either tan or light gray colors. For the discerning owner, who wants the warmth and look of a wood rim, Edson can provide these wheels on a custom basis with teak and holly laminated rims.

Bi-Spoke Destroyer Wheel

- 5 spoke design
- Available from 36" (915mm) to 60" (1525mm)
- Buck Tan or Dove Gray Leather rim covers available
- Teak & Holly Rim available on special order
- Item #649TK or #649Custom

Edson's newest carbon yacht wheel is the lightest weight production carbon wheel on the market. Weighing less than 10lbs (4.5kg), the Edson ProSeries Carbon Wheel features a unique forked tri-spoke design, superb strength and fingertip sensitivity. Available from 36" (900mm) to 59" (1500mm), they are fabricated in carbon fibre using one piece monocoque construction — making them super strong and super light. The high gloss clear coat finish over carbon fabric weave yields a hi-tech look that compliments both a Grand Prix racer and a Superyacht.

Pro-Series Carbon Wheel

- Ultra-light weight - under 10 pounds!
- Virtually no flywheel effect.
- Large Diameter 1-5/8" wheel rim.
- High Gloss Clear Coat Carbon Fibre Finish
- Ergonomic Forked Tri-Spoke Design
- Monocoque Construction for Strength
- Sizes 35" (900mm) to 59" (1500mm) available
- Item #659

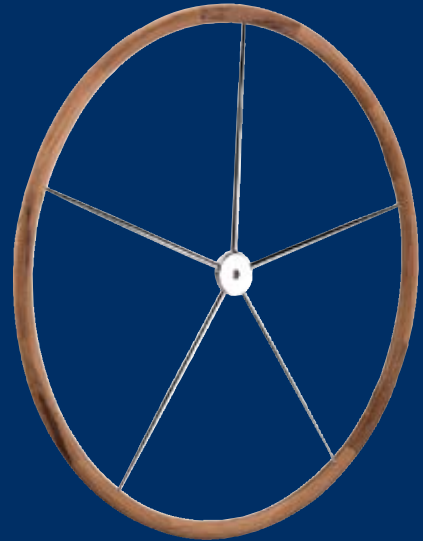

The Edson Clutched Bi-Spoke Destroyer Wheel offers the ability to disengage the wheel from the wheel shaft and steering mechanism while under autopilot. This greatly reduces the "Flywheel Effect," which puts tremendous load on the autopilot. The Clutched Wheel features twin, tapered spokes for an elegant and attractive appearance. This spoke arrangement also adds a tremendous amount of fore and aft strength and rigidity to the wheel, making it an excellent choice for the offshore passagemaker. Custom faceplate engraving is also available to add a personalized touch.

Clutched Bi-Spoke Wheel

- Integral hub clutch
- 48" (1220mm), 54" (1372mm) and 60" (1525mm) diameters
- Buck Tan or Dove Gray Leather available
- Teak & Holly Rim available on special order
- Item #650

CUSTOM YACHT WHEELS FOR POWER AND SAIL

Edson's Teak Rim Destroyer Wheels are warm to the touch, elegant in appearance and feather light. They feature hollow, tapered stainless spokes and a highly polished hub, just like their stainless cousins, but with a ergonomically shaped solid laminated 1-1/4" (32mm) natural teak rim, sanded smooth, ready for the finish of your choice. These wheels are the perfect way to upgrade the look of any power boat helm or sailboat cockpit. They will add a beautiful centerpiece to your yacht.

Teak Rim Destroyer Wheel

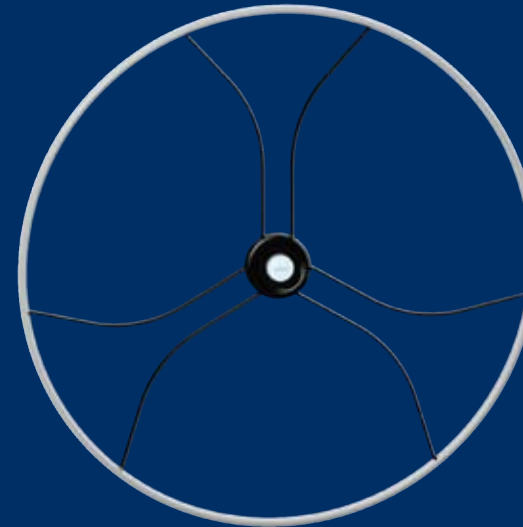

- Straight or Tapered hub
- 16" (406mm) - 48" (1210mm) diameters.
- Solid Teak Rim
- Item #645TK/647TK for Sail • Item #1750TK for Power

The classic Edson Destroyer® Wheel will add distinction and value to any boat. Available in sizes ranging from 18" (457mm) to 60" (1520mm), they feature an attractive dished shape and tapered hollow spokes. Elegant yet strong, these wheels have a timeless appearance that will look great on any style of sailboat. The "D" shaped rim is comfortable in your hands and the optional Leather Wheel Rim Cover will make those long hours at the helm less tiresome. Edson Destroyer Wheels are available with either a 1" straight hub or a tapered hub, both precision machined to ensure an exact fit to your steering shaft.

Stainless Destroyer Wheels

- Ideal Delivery Wheel.
- Marine Grade Stainless
- Tapered, Hollow spokes for light weight
- Available from 18" (457mm) to 60" (1520mm)
- Leather or Comfort Grip rim covers available
- Buck Tan or Dove Gray Leather available
- Item #645/647 for Sail • Item #1750 for Power

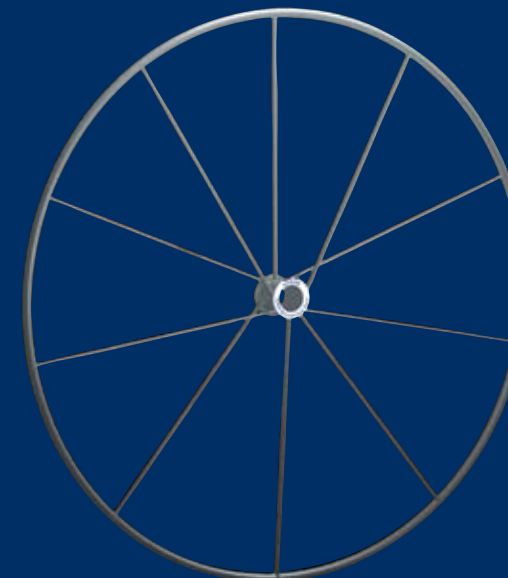

Edson's "Diamond Series" line of lightweight aluminum racing wheels have been a fixture on performance boats and racer/cruisers for over 15 years. Now Edson has added a new style to the series called the "Double Black Diamond", featuring an all new 3x2 six spoke configuration.

The Double Black Diamond wheel is built using the same airfoil-shaped aluminum spokes as the original Diamond Series wheels, but features a redesigned spoke arrangement to make it lighter and more elegant. Since the Double Black Diamond Wheel is constructed entirely of aluminum, it is far lighter than stainless wheels of similar size at a fraction of the cost of a carbon wheel. The wheel is black powder-coated and comes with Edson's Gray ComfortGrip Leather Wheel Rim Cover for a secure grip in all conditions.

Double Black Diamond Series Racing Wheel

- 3x2 Six Spoke Design
- Dove Gray Comfort Grip Leather Rim Cover
- 36" (915mm) to 60" (1500mm) diameters
- Wheel Flange Adapter required (#698FL)
- Item #642BD

The Ultra-Light Aluminum Racing Wheel has become a favorite on the grand-prix racing circuit because of its low weight, sleek styling and sensitive feel. Popularized on the Farr 40 fleet, the Ultra-Light Wheel is available in symmetrical and non-symmetrical designs from 44" (1118mm) to 80" (2032mm). The airfoil-shaped spokes contribute to fore and aft rigidity and the oversized circular wheel rim provides a comfortable grip in heavy seas and when wearing gloves. For the ultimate in durability, each Ultra-Light Wheel is coated in Edson's renowned baked on urethane powdercoat, in either white or black, or in custom colors to match your racing boat's color scheme.

Ultra-Light Aluminum Racing Wheel

- Symmetrical and Non-Symmetrical designs
- Airfoil shaped spokes for rigidity
- Sleek dual spoke dished design
- Black, White or custom powder coat colors available
- Available from 44" (1100mm) to 80" (2030mm)
- Leather or Comfort Grip Wheel rim covers available
- Custom Engraving available on faceplate
- Item #641

CUSTOM YACHT WHEELS FOR POWER AND SAIL

Edson's Classic Teak Yacht Wheel is the Original. In production for over 125 years, this is a wheel that belongs on any classic yacht or stately passagemaker. Created by third-generation master craftsmen, the skills and artistry that go in to making these wheels have been passed down from generation to generation, ensuring a consistency and quality that can only be attained by the hand-crafted talents of their builders.

Although extremely elegant, the Classic Teak Yacht Wheel is not just a showpiece for a wall. It is handcrafted to the highest offshore-quality standards, and will provide years of service for the classic yacht. It features solid teak spokes and felloes rigidly secured with stainless fasteners and holly bungs. Delivered fully varnished.

Classic Teak Yacht Wheel

- For Sail or Power
- Solid Teak Construction • 24" (610mm) to 36" (915mm) diameters
- Bronze or Chrome Hub available * 1" straight bore
- Larger Sizes available on Custom order
- Item #601 or #601Custom

Edson's Polished Bronze Wheel with Teak Handles add distinction to any traditional boat. The bronze wheel body is delivered highly polished and with regular maintenance will retain its attractive gleam, or it can be left to age gracefully and take on a classic patina appearance. Available in sizes from 20" (508mm) to 30" (762mm) in diameter, the Bronze Wheel features varnished teak handles and a 1" straight shaft bore. The solid teak handles are held securely with stainless carriage bolts, which can be easily replaced if needed.

Polished Bronze Wheel

- Cast in Edson's own foundry
- Made of solid bronze
- Hand polished to a mirror finish
- Varnished Teak Handles
- * 1" straight bore
- Item #602BR

www.edsonwheels.com

Our Tan Character Wheels are patterned after the traditional heavy cast iron wheels of yesteryear, only ours have been updated with modern materials and construction methods. Cast in marine-grade 356-T6 Aluminum and powder-coated tan, this up-to-date version is much lighter than the original, yet retains its strength and beauty for years to come. To ensure a precise fit to the wheel shaft, a machined stainless insert is pressed into the hub.

The Tan Character Wheel features Edson's classic Teak handles and is available with a 1" straight bore. Available in sizes from 20" (508mm), 25" (635mm), 30" (762mm) and 35" (890mm).

Character Wheel

- Cast in Edson's own foundry
- Lightweight 356 aluminum construction
- Varnished Teak Handles
- Heat treated to T-6 hardness
- Tan baked-on urethane powder coating
- 1" straight bore
- Item #688

Simplicity is the keynote for Edson's Classic Bronze Wheel. The tumbled bronze body will age to an attractive patina over time, yet the wheel will maintain its strength and durability after years of use in a working environment. Six 5" teak handles are held securely in place with stainless carriage bolts and can be easily replaced. The overall diameter is 19" (483mm) and the hub is available in either a 1" straight or a 3/4" tapered bore. A true workhorse with the classic good looks of a thoroughbred.

Classic Bronze Wheel

- Teak handles and tumbled bronze finish
- Measures 19" tip to tip
- Varnished Teak Handles
- Stainless carriage bolts for convenient handle replacement
- 1" Straight, Edson Taper or Powerboat Tapered bores available
- Item #971

TWO HOURS TO ABACO.

AS YOU REACH FOR THE AUTOPILOT, THE
SOFT COMFORTGRIP™ FINGER GRIPS ON THE
EDSON WHEEL FEEL GREAT IN YOUR HANDS.

YOU DECIDE TO DRIVE HER ALL
THE WAY IN.

Ocean Yachts relies on the quality of Edson Pro-Series PowerWheels on their offshore sportfishers. Edson's PowerWheels are one of the best ways to upgrade the look and feel of your boat. They feature a classic design yet have a contemporary styling – equally at home in a finely appointed pilothouse or an all-business sportfish flybridge.

"Out in the flats it always seems I need three hands. The Edson PowerKnob lets me easily steer one-handed, leaving a hand free for the throttle, a rod, net, or to reach for my pliers. This wheel looks like a piece of jewelry, but it's built like a tank."

Capt. Lindsay Harper, Flats Guide
Key West, FL

"I have my hands on the wheel more than any piece of equipment on my boat. Edson's Comfort Grip Wheel is one of the most comfortable I've ever used. The positive no-slip grip really comes in handy with wet hands. And the polished stainless finish is impeccable, and coupled with a gold knob, my console has never looked better."

Capt. Dave Cornell, Fishing Guide
Buzzard's Bay, MA

YOUR CREW'S HOOKED UP WITH A FISH
– AND WON'T LET GO TILL IT'S LANDED.

YOU'RE HOOKED UP WITH YOUR EDSON
WHEEL – YOU'RE NOT LETTING GO EITHER.

YOU BOTH HAVE COMPLETE CONFIDENCE
IN YOUR EQUIPMENT.

Regulator Marine knows offshore fishing. So they specify the best gear available - built to withstand the rigors of hard running. Edson's PowerWheel is the preferred wheel on nearly every Regulator built.

Satin Finish Stainless PowerWheel

IT TAKES 3 HOURS TO GET TO THIS SPOT –
BUT ITS ALL YOURS.
YOU'VE CAUGHT AND RELEASED
UNTIL YOUR MUSCLES ACHE.
SAVORING THE DAY, YOU WRAP YOUR HANDS
AROUND YOUR EDSON POWERWHEEL
FOR THE TRIP HOME.
COMPLETE SATISFACTION, TOTAL RELAXATION...
THIS IS WHY YOU BOUGHT THE BOAT.

EDSON PRO-SERIES POWERWHEELS

Edson's Classic Stainless Power Wheels can be found on many of the world's finest yachts - from the pilothouse to the flybridge.

Edson's PowerKnobs® bolt or strap on to virtually any steering wheel. With the feel of precision engineering, twin races of fast action ball bearings and a comfortable, ergonomic shape, you can effortlessly maneuver any boat, from a flats boat, center console or runabout to a sportfish, motoryacht or trawler. Available in stainless or black poly.

Item #969 (Stainless) #967 (Black)

Edson's Stainless "Comfort Grip" PowerWheels are the latest addition to the Edson PowerWheel line. They feature a unique rubber finger grip insert that provides precise control and ultimate comfort. Available in 13", 14.5" and 16" diameters.

Item #1710ST

Edson's Satin Finish Stainless "Comfort Grip" PowerWheel incorporates the same design as the highly polished version, but features a water-blast finish that is silky-smooth to the touch but without the bright glare of polished stainless. Available in 13", 14.5" and 16" diameters.

Item #1710WB

Edson's Bi-Spoke Stainless "Comfort Grip" PowerWheels feature a distinctive dual-spoke design that has become a classic look on offshore "Battle Wagons" from Block Island to Belize. Hub cap can be custom engraved and has no protruding wheel nut. Available in 14.5" and 16" diameters. Satin finish also available.

Item #1730ST

Edson's Bronze PowerWheel is sure to dress up any boat - especially a classic sportfish or wooden runabout. Solid cast bronze construction is highly polished to a mirror finish, giving a deep, rich golden glow. Includes Brass Wheel Nut with inserts for 1/2"-20 and 5/8" threads. Available in 13" diameter only.

Item #1700BR

Edson's Teak Rim PowerWheel is the most elegant PowerWheel available. It is perfect for dressing up an all-fiberglass cockpit in a center console or a sportfisherman. Available in Silver Almag in 16" diameter.

Item #972STK
