SHADING SPACES

Luxury blinds & soft furnishings

Life on the water gives us plenty of light and action, but unfortunately with that comes excess heat and glare that can affect your comfort whilst at sea. The range of products from Dometic blinds has been specifically developed to tackle this issue so that your time on the water is pleasant and enjoyable.

The complete range offers the ideal systems for managing light and privacy onboard for ultimate relaxation. Unrivalled in scope and choice, our product range is designed and manufactured in-house, destruction tested and optimised for life at sea.

1. Pleated Blinds

When you're looking for privacy on board, our elegant range of pleated blinds is the perfect fit for any window, ensuring you are undisturbed day and night.

2. Roller Blinds

Available in a wide range of light and temperature-regulating fabrics with manual, powered and precision control options, Dometic roller blinds can be easily integrated to seamlessly fit and complement other window treatments.

3. Roof and Hatch Blinds

Dometic roof and hatch blinds provide nighttime privacy and blackout whilst keeping insects away, allowing for a good night's sleep.

4. Venetian Blinds

Exquisitely engineered, we have a window treatment for every application. Choose from a wide selection of styles to suit all tastes, from contemporary shades to traditional finishes.

5. Soft Furnishing

From classic to contemporary or simply introducing a touch of home comfort onboard, the versatility of Dometic's range of soft furnishings provides the ideal solution. With a wide variety and combination of fabrics, styles, and finishes, our design team is on hand to guide you through the entire process.

PLEATED BLINDS

WHAT MAKES SKYSOL THE BEST CHOICE FOR YOU?

Ideal for shaped, inclined, or standard yacht windows, our Skysol range is custom designed for a seamless fit. Whatever your needs – from gentle light to complete blackout, warm comfort to cool shade, discrete shading to total privacy – Skysol blinds can be designed to create a range of moods. With a bespoke style, the UV-resistant and marine-ready Skysol blinds have been engineered to reduce maintenance bills by keeping excessive heat out in warmer climates and retaining warmth in colder environments.

Benefits

- Retains heat in colder climates or blocks excessive heat in hot climates
- Powered operation available with 12 V DC, 24 VDC, or mains motors
- Operation via handheld remote, wall switch, or integration into the control system
- Range of 20mm pleated fabrics in sheer, privacy, and blackout types
- Available with white, beige, or grey hardware to suit yacht interior
- Low profile headrail for a discrete look

1. Fabric choice

Choose from a wide variety of 20 mm sheer, privacy, or blackout fabrics.

2. Effortless control

Powered options ensure effortless control with our Skysol blinds.

3. Colours

Choice of beige, white, or graphite hardware colours to suit your interior.

STAY SHADED ON THE WATER

Domestic Oceanair pleated blind solutions

When out on the water you can be exposed to excessive heat and light, potentially causing discomfort onboard your vessel. Dometic's range of pleated blinds have been specifically developed and tested to not only tackle these issues but allowing you to easily control your onboard environment.

Dometic's pleated blinds can be fitted into any size, inclined or shaped window making them suitable for all types of window and boats. Available in child safe, manual or powered control mechanisms, they offer a consistency in styling, effective light and temperature control, with a smart finish.

4. At any angle

Skysol blinds are beautifully tensioned so that they work at any angle.

5. Perfect for shaped windows

The perfect solution for shaped windows.

6. Designed to fit

Our engineering experts design every one of your blinds for the perfect fit every time.

Dometic Oceanair Skysol Pleatedshade

Fabric pleated blind for portlights and small windows.

The Skysol Pleatedshade is available in a choice of coloured fabrics and can be tailored for simple-shape application. Offering a softer finish on windows, Dometic Oceanair Pleatedshade is suited to use in the saloon. Its light-diffusing properties can create an easily adjusted ambient lighting throughout the day – perfect for a relaxed atmosphere.

- Create a soft and warm interior lighting
- Accommodates simple shapes
- Selection of easy-to-use hold-down and hold-up options
- Available in white, beige and light grey
- Portlight frame-fix available
- Available in standard sizes as well as custom design

Dometic Oceanair Skysol Honeycomb

Honeycomb pleated blind for windows.

This elegant custom-built pleated blind is ideal for natural light and temperature control. Stylish yet functional, Skysol Honeycomb also protects your privacy on board the yacht. Its slim profile is suitable for slim recesses. The nature of honeycomb fabric means that, unlike single pleated fabric, the cording is not visible. Since no holes have to be punched into the fabric for operating cords, there is no light seepage. The shading results are thorough and crisp.

- Suitable for slim recesses
- Choice of fabric types and colours
- Powered operation available with 12 V DC, 24 V DC, or mains motors
- Operation via hand-held remote, wall switch, or integration into the control system
- Available with white, beige, or grey hardware
- Suitable for inclines
- No visible cording holes

Dometic Oceanair Skysol Motion

Auto-retractable pleated blind for portlights and small windows.

Skysol Motion is a contemporary, pleated blind available with a choice of fabrics. Skysol Motion's light diffusion is ideal for creating softer light in the saloon with ease and speed. When you're ready to move on, the blind can be quickly stowed away.

- Automatically retracts when released
- Suitable for inclines
- No guide wires or loose cords
- Bottom fix hold-downs available
- Choice of classic pleat or honeycomb fabrics
- Available with white or beige hardware
- Standard sizes available as well as custom designs

Dometic Oceanair Skysol Day/Night

Combination blackout and privacy pleated blind for windows.

Skysol Day/Night provides excellent control of light, shade, and privacy. Suitable for inclines and slim recesses. Powered operation is available for effortless control. Our honeycomb pleated fabric improves both the functionality and aesthetic of the Dometic Oceanair Skysol Day/Night blind. Any cording holes needed to operate the blind are hidden from view. Not only does this look smarter, but it also ensures full privacy and blackout are achieved.

- Suitable for slim recesses
- Suitable for inclines
- Powered operation available for effortless control (24 V DC)
- Operation via hand-held remote, wall switch, or integration into the control system
- Choice of manual control options
- Choice of fabric types and colours
- Available with white, beige, or grey hardware

Dometic Oceanair Skysol Classic

Pleated blinds for windows of any shape or incline.

Elegant yacht designs create a range of installation challenges, particularly with shaped forward windows. Angled windows often allow excess light and heat into the saloon – Dometic Oceanair Skysol is the perfect solution. Skysol Classic can be neatly recessed into the aperture so that it is hidden when stowed. It also works at any angle and can be custom designed to fit any shape.

- Retains heat in colder climates or blocks excessive heat in hot climates
- Powered operation is available with 12 VDC, 24 VDC, or mains motors
- Operation via hand-held remote, wall switch, or integration into the control system
- Low profile headrail for a discrete look
- 16 shapes suitable for any window type
- Suitable for inclines of any angle

Available shapes

1. Fabric choice

Choose from a wide variety of 20 mm sheer, privacy, or blackout fabrics.

2. Effortless control

Powered options ensure effortless control with our Skysol blinds.

3. Colours

Choice of beige, white or graphite hardware colours to suit your interior.

4. At any angle

Skysol blinds are beautifully tensioned so that they work at any angle.

5. Perfect for shaped windows

The perfect solution for shaped windows.

6. Designed to fit

Our engineering experts design every one of your blinds for the perfect fit every time.

Dometic Oceanair Skysol Track Small

Skysol Track Small is perfect for those tricky curved recesses, commonly found on companionway doors. The inbuilt gliders slide smoothly down custom-made curved tracks, ensuring the blind operates effortlessly every time. Choose light-filtering honeycomb fabric for a warming ambience or blackout honeycomb fabric for complete privacy.

- Dual fabric option available to combine privacy and blackout fabrics
- Choice of which end the blind stows
- Dual blinds can stow at one end or both ends
- Suitable for tight radius curves
- Choice of privacy or blackout 25 mm honeycomb fabrics
- Moving rail controls adjustable blind position, available with coordinating handles
- Powder-coated aluminium hardware for a stylish finish

Benefits of Skysol Track Small

1. Tight corners

Designed to fit around a tight radius. Curved corner windows are no problem.

2. Privacy

Let the light in, yet maintain your privacy on board.

3. Blackout

Ideal for a great night's sleep.

4. Not just for doors

Skysol Track Small is also suitable for curved windows.

5. Effortless control

Available with powered control – operation at the touch of a button.

6. Custom tracks

Our custom-made bent aluminium tracks make operating the blind smooth and simple.

Dometic Oceanair Skysol Precision

Skysol Precision is capable of covering large recesses, suitable for yacht windows and aft patio doors.

Skysol Precision is a simple pleated blind that can be fitted to a doorway – it simply lifts with a touch of the hand, and pulls effortlessly back down again. This ease of use makes it a practical solution for a frequently used aperture.

- Magnet hold prevents rattling noises
- Minimal fabric stack when stowed
- Lightweight makes it effortless to use
- A choice of privacy or blackout honeycomb fabrics
- Perfectly suited to aft patio doors, including child-safe design
- Deploy and hold at any height

BLINDS TO SUIT ANY INTERIOR

Dometic Oceanair roller blind solutions

When out on the water, you want products that are not only attractive but practical. Dometic's roller blind range provides excellent shading qualities and the benefit of extended onboard privacy with a classic roller blind aesthetic. Available in a wide range of light and temperature regulating fabrics with manual and powered options, our roller blinds

can be integrated to seamlessly fit and complement other window treatments. Whether you are looking for a contemporary or modern style, Dometic has the ideal solution. If you want our latest development, why not try the roller blind PrecisionRise allowing you to lock your blind into place at any position.

WHAT MAKES ROLLER BLINDS THE BEST CHOICE FOR YOU?

Compact, discreet and practical in their design, roller blinds provide excellent shading qualities. Whether very large or very small, hand-operated or motorised, there is a roller blind treatment to suit every window. With a vast range of fabrics, textures, and colours available, you'll be sure to find the perfect solution to meet your every interior design need.

Benefits

- Custom manufactured to client specification
- Broad range of sheer, dimout, and blackout fabrics
- Zip system option for inclined windows
- Optional tracks and guide wires hold the blind in place, ideal for angles, apertures, or simply when the vessel is in motion
- Powered and manual options available, complemented by a wide range of control mechanisms and accessories

1. Fabric choice

Choose from a variety of sheer, privacy or blackout fabrics.

2. Smart control

A choice of powered options ensure smart control with our Rollerblind range.

3. Customise

Choice of black, white or silver hardware and insert colours.

4. Cassette option

Cassette available to conceal the blind, mounting profile for a simple fit or standard bracket option.

5. Side tracks

For minimising light gap, side tracks are available on Rollerblind Powered.

6. Sophisticated finish

Durable aluminium frame with a classic roller blind look.

Dometic Oceanair Rollerblind Manual

Keep it simple on the water with manually controlled roller blinds.

- Custom manufactured to client request
- Simple to use and easy to understand
- Optional side tracks and guide wires hold the blind in place, ideal for angled apertures or if used in any moving vehicle
- Mounted profile and cassette options for easy installation

Dometic Oceanair Rollerblind PrecisionRise

The PrecisionRise offers an all new, unique smart locking mechanism that allows it to be easily set and secured at any position. Enjoy unspoilt views or shade yourself from the sun, with this stylish and modern shading solution.

- New smart locking mechanism
- Easily set and secure your blind at any position
- Available with a bracket, mounting profile bar or cassette for simple installation
- Robust quality, ideal for the harshest marine conditions
- Optional guide wires for angled apertures
- Classic roller blind look

Benefits of Rollerblind PrecisionRise

1. Smart locking mechanism

Easily set and secure your blind at any position, ensuring light and temperature control no matter the conditions.

2. Expertly designed

Meticulously designed for robust quality and finish, with all components suitable for the harshest marine conditions

3. Standard & custom options available

Select from a wide range of sizes, styles and fabric colours to create the ideal onboard environment.

Dometic Oceanair Rollerblind Powered

Roller blinds made easier with a choice of powered controls at your disposal.

- Powered operation (12 V DC, 24 V DC or mains)
- Operation via hand-held remote, wall switch, or integration into the control system
- Suitable for hard-to-reach areas
- Guide wire or side tracks available for securing blinds or increased blackout

4. Simple, stylish & sophisticated

The PrecisionRise is a simple, stylish, and sophisticated way to control light and your cabin environment and create privacy onboard.

5. Simple installation

The mounting profile system creates a one-piece unit, offering simple installation with minimal tooling required.

6. Child safe compliant

The design eliminates the need for hanging cords or wires, removing any hazards for children to get caught in.

Dometic Oceanair Skyshade Portshade

Slim blackout roller blind for portlights or hatches.

Ultra-slim cassette roller blind, suitable for even the smallest of portlights. Our small profile blind is ideal for portlights, particularly those in the galley which often have little space around them.

- Simple installation with just two screws
- Range of hold-downs available
- Slim design for confined spaces, top or face fix
- Anti-rattle end caps
- Available in white, beige, or silver
- Suitable for curved mounting surfaces
- Available in standard sizes as well as custom design

Dometic Oceanair Skyshade Bigshade

Simple roller blind with a shaped cassette blackout system for large windows.

Suitable for windows or roofs, Skyshade Bigshade is ideal for larger applications. Its cassette design means it will stow into itself, retracting clear of the aperture, allowing you to enjoy great views during the day. Includes anti-rattle end caps to avoid disturbance.

- Shaped cassette for a seamless look
- Suitable for horizontal or vertical application
- Anti-rattle end caps
- Simple installation
- Available in white, grey, black, or beige
- Range of hold-downs available

Dometic Oceanair Skyshade Cabinshade

Blackout roller blind for windows and hatches.

The blackout properties of the Cabinshade make it perfect for small windows in the cabin, with the option of fitting it on the hatch for a seamless look. Cabinshade is larger in profile than the Portshade model, so it can house more fabric. This makes it ideal for larger applications.

- Custom design available as well as standard sizes
- Simple installation requires just two screws
- Anti-rattle end caps
- Range of hold-downs available
- Available in white, beige, or silver
- Suitable for curved mounting surfaces
- Top or face fix

Dometic Oceanair Skyview

Hybrid venetian and roller blind for windows.

Skyview offers the functionality and tilt control of a Venetian blind with the simplicity of a roller blind. The blind can be completely stowed out of sight onto a single roller. When deployed, it ensures privacy and heat protection. The open tilt allows for perfect views and light control.

- Open tilt for perfect views
- Closed tilt for privacy and light control
- Powered operation available with 12V DC, 24V DC, or mains motors
- Handheld remote, wall switch, or integration into the control system
- Available with guide wire control for more secure deployment
- Soft, subtle finish with a contemporary style

ROOF & HATCH BLINDS

IN THE MIDDAY SUN

Dometic Oceanair roof & hatch blinds

With advances in yacht design and marine-based technologies, naval architects are able to take advantage of picturesque views with larger glass panels. Glass roofs are therefore becoming more popular, allowing you to take in the view of the heavens above, and enjoy the sunshine. With the midday sun, however, comes heat and glare,

which is not always welcome on board. Dometic's range of roof & hatch blinds allows you to control light and heat so that an optimum level of comfort can be reached. The ultimate luxury is having your blinds close at the touch of a button – why not go a step further and use an automated blind for those hard-to-reach windows?

WHAT MAKES SKYSCREEN THE BEST CHOICE FOR YOU?

Dometic Skyscreen provides a unique solution to shading boat hatches by combining a blackout blind and a separate flyscreen within one unit, tailored to fit any type and size of hatch. Our blind innovation draws upon ongoing technological advances and end-user feedback to continue to provide a high-quality, cutting-edge product. Whatever your individual hatch requirements, the Skyscreen range includes a solution for you.

Benefits

- Blackout blind and separate insect screen in one unit
- Modular construction, available for any sized hatch
- Easy to install
- Retrofit over existing hatch trims, or recess into your headlining
- For a perfect finish, liner and trim sets are available to resolve through deck engineering challenges
- Choose between roller blind or pleated fabric depending on your preferred design
- Choice of product for every application

1. Standard sizes

Standard sizes available in our retail range.

2. Perfect finish accessories

Liner trim kits available for the perfect finish between hatch and screen.

3. Choice of colour

Available in a choice of white or beige.

4. Powered

Powered operation is available at 12VDC or 24VDC.

5. Natural ventilation

Flyscreen lets air into the cabin for a fresher interior.

6. Complete blackout

Blackout, moisture-resistant fabric for a low-maintenance finish.

Dometic Oceanair Skyscreen Roller Surface

Surface-mounted blackout and flyscreen blind, ideal for retrofit.

- Quick and easy installation
- White or beige hardware colour
- Magnetic closure
- Optional liner systems
- Ideal for thin decks
- Standard sizes available as well as custom design

Dometic Oceanair Skyscreen Roller Recessed

Combination hatch blind, engineered to sit flush with the headlining.

- Durable powder-coated aluminium cassette
- Low profile fitting means it sits flush with the headlining
- Blackout blind for a good night's sleep
- Recoil damper system
- Standard sizes available
- Magnetic closure

Dometic Oceanair Skyscreen Roller Concealed

Roller and flyscreen combination blind for concealed fitting within the headlining.

- Quick-release buttons available in 3 colours
- Recoil damper system
- Flyscreen and blackout combination

Dometic Oceanair Skyscreen Powered

The Skyscreen Powered blind for hatch screens has a modular design for convenient versatility. Blind sections can be interchanged so that for example, the roller and pleated fabrics are combined within a single blind. It can also be completely concealed into the yacht headlining.

- Powered operation with 12 V DC or 24 V DC, enables effortless control
- Enjoy natural ventilation when flyscreen is in use
- Can be completely concealed into yacht headlining
- Operation via hand-held remote, wall switch, or integration into the control system
- Roller fabric
- Blackout or flyscreen or both
- Belt drive system reduces operating noise and improves efficiency

Dometic Oceanair Skyscreen Pleated

This compact lightweight pleated hatch blind is easy to use with integrated, magnetic handles. Its slim cassette ensures minimal impact on headroom. Available with single pleat fabric as standard, or with Honeycomb fabric for a complete blackout.

- The stylish powder-coated aluminium cassette is also very durable
- Slim cassette ensures minimal impact on headroom
- Easy-to-use lightweight blind with integrated, magnetic handles
- Concealed or surface-mounted option
- Brush strip to keep insects out
- White or beige hardware colour

SKYSHADE

THE SIMPLE CASSETTE ROLLER
FOR A GOOD NIGHT'S SLEEP

Our Dometic Oceanair Skyshade range is available as standard with our blackout fabric, ensuring a dark cabin for a good night's sleep. Extra benefits include UV resistance, solar reflection, and moisture resistance – great features for use in a marine environment. The fabric also has a convenient wipe-clean surface, while the Skyshade's hardware is powder-coated in aluminium for a tough durability.

Dometic Oceanair Skyshade Hatchshade

Simple roller blind with a shaped cassette, designed to create a seamless finish with the headlining.

If you're looking for a quick and simple shade to keep the light out at night, then the Skyshade Hatchshade is ideal. Fully retracting into the cassette, Hatchshade is perfect for fixed hatches, where a flyscreen is not required. Optimally designed, Hatchshade combines the performance and technology of the Skyscreen fabric in a functional, cost-effective product.

- Shaped cassette for added style
- Powder-coated aluminium hardware
- Side pegs enable halfway opening
- Available in white, silver, or beige
- Range of hold-downs available
- Also suitable for vertical operation
- Simple and fast installation with just two screws

Benefits of Skysol Hatchshade

1. Suitable for small and medium applications

Provides overhead shading from direct sunlight, controlling cabin light and temperature.

2. Expertly designed

Select from a variety of ergonomically designed handles for simple and effortless operation.

3. Standard & custom options available

Select from a wide range of sizes, styles and fabric colours to create the ideal onboard environment.

4. Designed for life at sea

The Skyshade's hardware is powder coated in aluminium for tough durability.

5. Choice of colour

Available in a choice of white or beige.

6. Simple Installation

Simple and fast installation with just two screws.

Dometic Oceanair Skysol Track Large

The Dometic Skysol Track Large provides overhead shading from direct sunlight while seamlessly complementing the interior of your yacht. Available with a range of pleated fabric options, Skysol Track Large benefits from an innovative cording system, which leaves the aperture completely clear when stowed. Stay cool and shaded in your saloon space with this stylish roof blind from Dometic.

- Lightweight, ideal for roof application
- Robust track technology suitable for tight radius curves
- Discrete cording with no visible guidewires
- Wide range of available fabrics in sheer, privacy, or blackout
- Day/Night option available
- Delivered pre-assembled for easy installation
- Manual or powered operation available

Benefits of Skysol Track Large

1. Suitable for larger applications

The Skysol Track Large offers significantly more coverage than the Skysol Track Small.

2. Fabric choice

Choose from a variety of sheer, privacy or blackout fabrics.

3. Elegant finish

Discrete cording for a clear aperture while rods hold the fabric secure.

4. Not just for doors

Lightweight, smart pleated blind, custom built for shading large sunroofs.

5. Effortless control

Available with powered control – operation at the touch of a button.

6. Custom tracks

Our custom-made bent aluminium tracks make operating the blind smooth and simple.

Dometic Oceanair Skysol Frame

Our Skysol Frame is our manual control, large application roof blind. Available with curved front 'fin' for roofs with a semi-circle front. The blind arrives readily assembled for ease of installation.

Many yacht roofs have a curved front, mirroring the curves of the yacht. This can pose challenges for blind design. However, Dometic Oceanair Skysol Frame comes with an optional 'fin' that can be customised to fit your roof window. This ensures a perfect finish and a complete blackout solution.

- Discrete cording supports fabric whilst leaving a completely clear aperture
- Pre-assembled, ready to install
- Blackout and flyscreen for temperature and light control, plus insect-free comfort
- Choose from pleated or honeycomb fabrics or use both in the same blind
- Optional shaped 'fins' for curved front recesses commonly found on yachts
- Flyscreen fabric available

Benefits of Skysol Frame

1. Suitable for small and medium applications

Provides overhead shading from direct sunlight, controlling cabin light and temperature.

2. Expertly designed

Discrete cording, supports the fabric whilst leaving a completely clear aperture.

3. Standard & custom options available

Select from a wide range of sizes, styles and fabric colours to create the ideal onboard environment.

4. Flyscreen Option

Add flyscreen fabric to keep insects, dirt, leaves, debris and pests from entering your boat

5. Effortless control

Available with powered control – operation at the touch of a button.

6. Simple Installation

The unit come pre-assembled and ready to install, making installation a quick and simple task.

SKYSOL POWERED ROOFBLIND

With advances in yacht design and marine-based technologies, naval architects can take advantage of picturesque views with larger glass panels. Glass roofs are therefore becoming more popular, allowing you to take in the view of the heavens above and enjoy the sunshine. With the midday sun, however, comes heat and glare, which is not always welcome on board. Skysol Powered Roofblind allows you to control light and heat so that an optimum level of comfort can be reached. The ultimate in luxury living is having your blinds close at the touch of a button – why not go a step further and use an automated blind for those hard-to-reach windows.

Dometic Oceanair Skysol Powered Roofblind

Skysol Powered Roofblind is the best powered blind on the market for larger applications such as roof windows. It can be integrated into the headlining for a seamless finish. Control by hand-held remote, wall switch, or integration into the control system.

- Innovative belt-drive system for quieter, strain-free operation
- Integrate into the headlining for seamless results
- Powered operation available with 12 V DC or 24 V DC motors
- Operation via hand-held remote, wall switch, or integration into the control system
- Range of mid-rail types depending on the weight of blind
- Privacy or blackout fabrics available
- Available with frames to prevent the need for built-in headlining

Benefits of Skysol Powered Roofblind

1. Belt drive system
Strain-free motor drive system that operates both blinds independently.

2. Effortless control
Powered by a range of motor options to cover all installation challenges.

3. Controls
Choose from hand-held remote, wall switch or integrated control operation.

4. Daytime privacy
Our range of privacy fabrics allows light into the yacht's interior whilst retaining privacy.

5. Blackout
Our blackout fabrics are perfect for a good night's sleep.

6. Complements Skysol range
Perfectly complements our Skysol range as well as the Skyscreen Powered.

SKYVENETIAN

PRIVACY WITHOUT COMPROMISE

From warm comfort to modern styling, Dometic's wide range of slats, tapes and ladders create a pleasant environment onboard whilst preserving outside views. Our Venetian blinds accommodate shaped and inclined windows and offer optimum privacy, UV, temperature and light control.

WHAT MAKES VENETIAN BLINDS THE BEST CHOICE FOR YOU?

All Dometic Oceanair Skyvenetian blinds can be customised to your requirements. There is a range of standard colour options to choose from, but as with most of our products, you are free to specify a fabric that is unique to you. Our experienced team is on hand to guide your choice to best fit the intended application. With powered control options available – handheld remote, wall switch, or integration with your system control – using 12 V DC, 24 V DC or mains voltage power.

Benefits

- Tilt control, shading the interior from intense heat, while allowing visibility through the aperture
- Likewise, tilt for privacy from the water's edge, while allowing light to cascade into the room
- A stylish looking blind that will add to the finish of the room, while providing functionality
- Almost every element of the blind can be customised, allowing for contrast ladders, ferrules, or even stitching on leather blinds

1. Custom stitching

Leather slats can be finished with a matching or contrasting coloured stitch.

2. Effortless control

Powered options ensure effortless control with our Venetian blinds (excludes Precision).

3. Range of finishes

Select from a wide range of patterns and finishes.

4. Range of slat sizes

Choose from 16 mm, 25 mm, and 50 mm slat widths.

5. Optional side tracks

Side tracks are a great alternative to guide wires for a sophisticated look.

6. Contemporary look

Whichever Venetian blind you choose will give your interior a contemporary finish.

Dometic Oceanair Skyvenetian Precision

Venetian blind with precision-hold control.

A versatile Venetian blind has precision hold technology, meaning it can be held at any desired height through its in-built, child-safe tension system. Skyvenetian Precision is available in aluminium or wood slat, with a range of standard colours to choose from.

- Choose from aluminium (16 mm or 25 mm) or wood slat (25 mm)
- Child-safe with no loose operating cords
- Elegant pinch-release chrome handles
- Range of standard colours to choose from

Dometic Oceanair Skyvenetian Wood

Hand-crafted classic Venetian blind with the highest quality wooden slats.

Wooden Venetian blinds subtly enhance your onboard space through the use of a simple tilt mechanism. Tilting the slats allows for easy light and temperature control, preventing unwanted glare and UV damage. The slat angle also offers privacy without completely reducing light transmission and outward visibility.

- With a choice of 25 mm or 50 mm wooden slat
- Simple shaping available
- Various child-safe manual control options
- Available with guide wires or sidetracks to ensure taut blinds
- Range of standard colours to choose from
- Available with powered operation

Dometic Oceanair Skyvenetian Alloy

Venetian blind for windows & doors.

The Dometic Oceanair Skyvenetian Alloy is a stylish addition to any yacht interior. The curved slats offer added strength, while also ensuring a small stack height.

- Simple shaping available
- Curved slats offer added strength and ensure small stack height
- Range of standard colours available or customise with any RAL colour
- Various child-safe manual control options
- Available with powered operation

Dometic Oceanair Skyvenetian Leather

Luxury blind with slats covered in a choice of the finest leathers, perfect for windows.

This stylish blind provides effective shading and privacy for the interior of your yacht. Almost every element of the blind can be customised, allowing for contrast ladders, ferrules or even stitching on the leather blinds.

- Handmade in Great Britain
- Select from faux or real leather fabrics, from our standard range, or any other leather
- Available with guide wires or sidetracks
- Available with powered operation

SIT BACK & RELAX

Unwind with our selection of creature comfort accessories for your yacht – the perfect finishing touch!

Complement your interior with the use of luxury bedspreads and throws, designed to fit your every need. A simple throw or bed runner can complete the look of your cabin. Add details such as embroidered logos or monograms, luxury quilting, trims, or buttons to complete the look. Wherever you are in the world, make sure you're comfortable.

Our luxury cushions and pillows are tailor-made to suit you. Our wide range of sizes and shapes is there to fit your every design need. Choose from fine duck down or firm fibres, a classic or contemporary aesthetic, cool subtle colours or add a splash of vibrancy to your saloon. Enjoy added comfort for relaxation with style.

Dometic Oceanair Bedding

A complete bedding package can be provided, from linens to throws & bed runners that take indulgence to another level.

The complete set can be designed to your specification in style and colour or even include details such as embroidered logos or monograms. Bed sets are made from the highest quality fabrics and with the option of tailored sheeting for the perfect fit. Whether choosing a contemporary or traditional style, bedding is a quick and simple way to transform the appearance of your yacht.

- Personalisation with in-house embroidery service
- Luxury sheets made from the finest premium linens, blending cotton and polyester for optimum durability and comfort
- Design consultancy to coordinate fabrics with existing interior and furnishings
- Wide range of quality fabrics to complement any interior
- Custom-made bedspreads and throws to cater for mattresses of all shapes and sizes

Dometic Oceanair Towels

Made to an uncompromisingly high standard and tested for absorbency, shrinkage, colour fastness, and shedding.

Dometic Oceanair Towels are made from premium cotton and innovative yarn-spinning technology is used to ensure lasting softness. Lengthened low twist, stable spun fibre loops offer durability, reduced drying times, and lasting colour. Add a personal touch to your towel collection with our in-house embroidery service. Towel sets are available in white.

- Innovative yarn-spinning technology ensures cotton softness
- Embroidery service available
- Quick-drying properties are ideal for on-board usage
- Lengthened low twist, stable spun fibre loops offer durability, reduced drying times, and lasting colour
- 100% premium cotton

Dometic Oceanair Cushions

Cushions and pillows are the ultimate interior accessories. A finishing touch to your home away from home which will improve the comfort and style of your yacht.

Cushions are an effective way to instantly change the look of your yacht's interior. Add a touch of colour and class with our completely customisable range. Create different effects and moods through the style, size and colour of your cushions. Set the tone for the room, exactly as you want it.

- Bespoke products with a large choice of styles, sizes, and designs
- Custom embroidery available on request
- Choice of luxury fillings; duck down, feather pads, polyester, or custom specified
- We work with customer-supplied fabric to match existing interior
- Wide variety of fabrics to choose from
- Colour contrast border options

1. All in the detail
Button detailing can be added for an extra touch of class.

2. Embroidery
Personalise with matching or contrasting colour embroidery.

3. Invisible zip
Our cushions are finished with invisible zips for a seamless finish.

4. Contrast piping
Piping adds a luxury feel to the cushion, add a bold statement with contrast piping.

5. Mitred corners
Exquisitely tailored corners, perfectly matched.

6. Trimming
Trim finishes for your cushions for added elegance.

WHAT MAKES ROMANBLIND THE BEST CHOICE FOR YOU?

A traditional fabric blind tailored to your exact requirements by experienced machinists. Add a luxurious look to your windows, whether you need a functional blackout or sheer blind, or simply a decorative accessory, Romanblind could be the perfect match for your yacht.

Benefits

- Suitable for slight inclines
- Handmade in Great Britain
- Child-safe design gives peace of mind
- Interlining available for extra warmth and a luxurious touch
- Available with guide wires and side tracks
- Powered operation available with 12V DC, 24V DC, or mains motors
- Operation via hand-held remote, wall switch, or integration into the control system

Gradient Hard
Stepped pleats when stowed with a crisp and contemporary finish.

Gradient Soft
Stepped pleats when stowed with a casual, soft finish.

Hobble
Our wave style pleat gives depth and movement to the blind even when deployed (as shown).

Standard Hard
Equal pleats when stowed with a crisp and contemporary finish.

Standard Soft
Equal pleats when stowed, with a casual, soft finish.

Sheer Roman
Sheer fabrics are used with clear rods and tapes for a delicate finish.

WHAT MAKES CURTAINS & DRAPES THE BEST CHOICE FOR YOU?

Curtains provide a versatile and elegant way to add style and atmosphere to your yacht whilst offering varying degrees of insulation, privacy, and shade. With a wide choice of linings, interlinings, shapes, lengths, colours, and fabrics, Dometic Oceanair Curtains are an attractive and adaptable way to soften your yacht's interior. We have a specialist team on hand to help make the selection, ordering, and installation process effortless.

Benefits

- Sheer, privacy, blackout, thermal & fire retardant fabrics available
- Powered operation available with 24 V DC or mains motors
- Choice of linings and interlinings, plus fire retardancy on request
- Operation via hand-held remote, wall switch, or integration into the control system
- Custom track bending service, ideal for curved surfaces
- Attention to detail with optional hand-stitched finish
- Specialist team on hand to make the selection, ordering, and installation process effortless

Pencil Pleat

For a fuller look.

Pinch Pleat

A classic, timeless style.

Triple Pinch Pleat

Elaborate pleats give an elegant finish.

Ripple Pleat

A contemporary style.

Eyelets

Modern in finish.

Cartridge Pleat

For a permanent wave effect.

Dometic AP Remote

Hand-held control for blinds and soft furnishings.

Take total control of your climate with the Dometic AP Remote, for use with Dometic's range of electric blinds, screens, and shades. Ergonomically designed and featuring easy-to-use bezel-edged buttons, the AP remote allows you to tailor your environment with ease.

- Dedicated channel to control all programmed blinds at once
- 9+ blinds per channel
- Up to 9 channels
- Magnetic stand for stowing
- Raised bezel buttons
- Clear LED interface

Benefits of AP Remote

1. Bezel-edged buttons

Ergonomic design allows for easy and comfortable use.

2. Wall holder

Securely hold the AP Remote in a convenient location.

3. LED display

Clear and sharp view to access channels.

4. Simple control system

Easy to use and ready for immediate operation.

5. Easy to program

Intuitive and simple set and reset method for quick use.

6. High gloss finish

Stylish and premium material fits sleek interiors and ensures longevity.
