

RUTGERSON

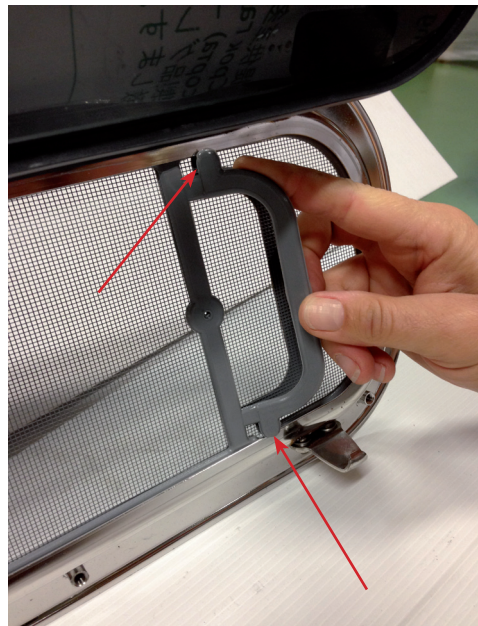

Rutgerson Mosquito Net for Portlights manual - English

Follow these instructions to attach the Mosquito Net to the portlight:

1. Put the Mosquito Net through the open portlight so that it is on the outside of the hull.

2. Hold the Mosquito Net against the stainless steel frame and pull the handles towards you so that all four plugs on the handles are on the inside of the stainless steel frame.

3. To remove the Mosquito Net, just push the plugs on the handles back to the outside of the stainless steel frame.
